

Unique table design allows for bridge and cart cuts on one machine.

Ideal for cutting ceramics, porcelain, reinforced grès, stone materials and bricks — up to 11,5 cm in a single pass.

Available in 3 standard lengths, or built-to-order in custom length.

- 2 HP engine with belt transmission
- Poly-V high efficiency transmission belt
- 100% Aluminium table chassis
- Modular table design enables sliding cart cuts on user demand
- Stainless steel head rails and adjustable armoured ball bearings
- Polyethylene water basin with screw-in cap
- Water cooling system featuring armoured pipe, metallic tap and bilateral blade spray terminals
- Magnetic-induction pump
- PVC cable/pipe protection chain
- Cutting head's vertical tilt capability allows for cut depth adjusting
- Cutting system's side tilt capability eases up to 45° ("mitre") cut
- Front, back and bilateral side blade protection devices included
- Electrical system featuring magneto thermal protection and release coil
- Retractable legs include fall-protection device
- Transport wheels included
- Supports Ø 300 and Ø 350 blades
