

Dry saws

Ideal for dry cutting wooden boards on any construction site — up to 11 cm in a single pass.

- Powerful 3.4 HP engine
- Poly-V high efficiency transmission belt
- Foldable extension table included
- Adjustable vertical blade position helps managing cut depth
- Fixed side-edge reference eases straight cut
- Adjustable opposed reference enables precise miters (oblique cuts)
- Transparent polycarbonate blade side protections included
- Material pusher rod included
- Electrical system featuring magneto thermal protection and release coil
- Quick blade spindown thanks to built-in engine-break system
- Transport wheels included
- Supports \varnothing 315mm blades
